

Infos for First Semester Students

Are you new to the university, do you have no clue what is going on and do you want to meet new people?

We are the Student council, your student representatives. We organized a lot to make your start into studying as easy and as comfortable as possible.

In **Erstiwochen (04.10.-23.10.21)** there are a lot of events that are planned by us or the university.

You can find all the important information in your first semester brochure (if you don't have one, come on over to the Forum Physikum (house 28 Room 0.085) and get one for yourself. You can also download it below.

Whenever you have questions, just write us a mail to: fsmaphy@lists.astaup.de or come onto our Discord server [Discord-Server](#).

- infos for the first weeks:
 - [Erstiheft 2021](#)
 - [Insert Erstiheft - dates](#)
 - [Presentation introductory event FSR](#)
 - [Presentation Frau Magdans \(Lehramt Physik\)](#)
 - [Presentation Introductory Meeting FSR \(English/Astrophysics\) Summer 22](#)

The current lecture directory and PULS

The current lecture directory is found [here](#).

Because the PDF there is a lot to read and can be a bit confusing, we strongly suggest the directory on **PULS (Potsdamer Universitäts Lehr- und Studienorganisationsportal)**. On PULS you can(and must), as soon as you get a university account, register for all courses and exams you want to take.

All your grades and achievements are saved in PULS.

You can certainly design your weekly schedule as you wish, but we suggest you orient yourself on the "Studienverlaufsplan" of your study regulations.

And if you want to change something, don't hesitate to ask us, if you're uncertain or [just write us a mail](#).

Be careful of the deadlines, to register **in time** for exams and courses. Registering late is

not possible, in this regard PULS is unfortunately very inflexible. All the deadlines are found [here!](#)

You can also create a PDF from your schedule on PULS, so you can print it.
Also you can find a lot of useful documents there, like a **certificate of enrollment or a performance overview with all of your grades.**

study and exam regulations

The current study and exam regulations for Mathematics and Physics are to be found on the respective institut's homepage. Same goes for all the master stuff. These regulations contain your rights and duties, which you, as a student of the respective course, have. It is very important to be familiar with the content of these regulations as they lead you through your studies.

You can find them:

[here](#)

Also the newest ones are linked here:

Superordinate study regulations

[Mono-Bachelor- and Mono-Master regulations](#)
[LA-Bachelor- and LA-Master regulations](#)

These regulations are above all field specific regulations of the university of Potsdam, so they apply to all students respectively.

For you as first semester students, the newest regulation applies, which is the one that is valid at the point of your enrollment.

field-specific study regulations

Physics:

[Mono-Bachelor regulations](#)
[Mono-Master regulations \(and old bachelor regulations\)](#)

[LA-Bachelor- and LA-Master regulations \(Sek I and II\)](#)

Mathematics:

[Mono-Bachelor regulations](#)
[Mono-Master regulations](#)

[LA-Bachelor- and LA-Master regulations \(Sek I & II\)](#)

Astrophysics:

[Astrophysics M.Sc.](#)

more information

Nextbike - rent free bikes

Do you want to explore Potsdam on your own, but do you have no bike?

With Nextbike every day you have **3 free hours** of bike-rent. Those bikes are available all around Potsdam, also on the 3 campi. You can register with your certificate of enrollment in the Nextbike App.

[The Nextbike website Terms and conditions places](#)

useful links

- [The official university website](#)
- [Studentenwerk Potsdam](#) - Here you can find all important information to the student dormitories, study financing and much more concerning your studies.
